(54) Title: GOLF GLOVES

(57) Abstract: A pair of gloves is provided for right and left hands. Each glove is a shaped covering with individual sheaths for each finger and a thumb. Each glove is formed with a front (10) and a back (12) in which one glove has two narrow bands (14), (15), delineated across its front (10). The front (10) and back (12) of both gloves are each bi-coloured or bi-patterned in mutually exclusive portions such that, when worn, and a golf club (not shown) is being held in a correct grip, only portions of one colour or pattern are visible to the user. One glove has a substantially circular formation (17) on the sheath for the thumb for location, in use, against a substantially semi-circular formation (19) provided on the front of the other glove. The semi-circular formation (19) is directed towards the sheath for the thumb.
